

Never Get Lost Again

"Say goodbye to printed road maps and to getting lost. Say hello to Smart-i!"

Innovasia is a Singaporean company engaged in research, development and integration of technology such as Security, Navigation Electronics, and Satellite Tracking Devices. With a vast network of experience in satellite navigation technology, Innovasia presents to consumers their Smart-i in-vehicle as well as portable navigation devices.

Smart-i 3.5" Portable Navigation Device

The Smart-i 3.5" Portable Navigation Device (PND) is a user-friendly device, which tells the distance between the current position and the intended destination. It also provides information on the shortest route to take. The sleek navigation device supports Singapore and Malaysian maps and displays in English, Chinese and Malay languages.

By simply touching the coloured screen to key in your destination, or using

postal codes to search, the Smart-i 3.5" Portable Navigation Device will take you there with 2D or 3D maps in high visual resolution, accompanied by turn-by-turn voice directions. In addition, you may choose either night or day mode for easy viewing in different lighting situations. It's also incorporated with definable points of interest or POI's such as ATMs, petrol stations, places of worship etc. Other functions and tools include audio and video player.

The Smart-i 3.5" Portable Navigation Device fits comfortably right in your bag, pouch or pockets. You can use it for multiple vehicles and it is powered by a rechargeable lithium-ion battery, which lasts up to 12 hours on standby and 4 hours in operation.

Smart-i IDP 6203 GPS Enabled Multimedia Player

The Smart-i IDP 6203 GPS Enabled Multimedia Player, is powered by

Microsoft Windows CE. It provides directions and travel information while allowing you to enjoy your favourite entertainment on the move as well.

Synchronize your mobile via Bluetooth to receive or make literally hands free calls, and enjoy crystal clear communication courtesy of the noise reduction chipset. Connecting your iPod via cable (provided) to the Smart-i IDP 6203 Multimedia Player allows you to view photos and videos from your iPod, though not necessary while driving and listen to your personal playlists while you get to your destination.
